Caring for Church Facilities

Plan Information

- *What does the church currently do to prepare the physical church buildings and contents (including the parsonage) for a disaster?* Fire protection through “Fleenor Security” monitoring the church 24/7. Annual fire marshall inspection Perform routine maintenance.
- *When disaster is approaching, who is responsible to initiate and coordinate these activities?* Disaster team leader and trustee representative. Volunteer Coordinator and Volunteer Coordinator Assistant.
- *How will the church protect electronic equipment (musical instruments, sound equipment, projectors, computers, copiers, etc.) in the event of a disaster? Don't forget to consider flood and storm waters.* The equipment is physically secure where it is located at any given time. The church is physically at an elevated location. The equipment is located at the center of the building. If time permits, equipment will be moved to someone's home.
- *What is the plan for protecting church documents and data? Don't forget to consider flood and storm waters.* Documents and data are kept on compact discs and memory stick located in safe deposit box located at ECU. Church inventory kept on camera card located in safe deposit box. These documents and data are also kept on computer and hard copies located at the church office.
- *What routine maintenance should be performed to mitigate damage from a disaster?* Fire protection monitored 24/7. Heating/cooling in sanctuary programmed in conservative setting when unoccupied. Classroom heating/cooling units turned off when unoccupied.
- *In the event of damage from a disaster, who is responsible for assessing the damage, contacting appropriate personnel at the district and/or conference and initiating an insurance claim?* CUMC Disaster Team Leader, trustee representative and Finance chairperson.
- *Where will the Local Church Disaster Team meet and set up as a central area of decision making if the church is inaccessible after a disaster? Be sure to inform your District Disaster Coordinator, the District Office and the Conference Disaster Recovery Coordinator and Center of the church's alternate location.* (1) Holston Electric Building, South Central Avenue Church Hill, TN.

- *In the event the church sustains significant damage and must be relocated, where will the church go and how will that be communicated to the congregation, the district and the conference?*
Congregation disbursed among other district churches until church is reconstructed. Another option would be to have our services at another church at a different time period. Communication to congregation would be through phone tree, telephone calls, emails, regular postal service and/or post on church's web site.
- *What are the plans if a church needs to evacuate during a worship service or other event? How would this be communicated to those present and by whom?* **Pastor, ushers, trustee or member of disaster committee would direct people to safety.**
- *What are the plans for communicating to the district and/or the conference in the event of an evacuation?* **Communicate by phone or email.**
